6. Property and equipment and intangible assets

During the year, the Group spent USD 25.8 million on office equipment, furniture and fittings, computer equipment, motor vehicles, leasehold improvements and intangible assets.

7. Right-of-use assets

The Group adopted IFRS 16 as from January 1, 2019 which changes the Group's Consolidated Financial Statements. Under IFRS 16 the majority of these leases became on-balance sheet liabilities with underlying right-of-use assets. The Group applied the modified retrospective approach, which requires the recognition of the cumulative effect of initially applying IFRS 16, as of January 1, 2019, to the retained earnings and not restate prior years. When doing so, the Group also made use of the practical expedient to not recognize a right-of-use asset or a lease liability for leases for which the lease term ends within 12 months of the date of initial application.

Since the Group recognized the right-of-use assets at the amount equal to the lease liabilities, there was no impact to the opening retained earnings.
